

Metering System DULCODOS® universal mini

Compact metering system injects liquid chemicals cost-effectively and reliably

up to 75 l/h (10 – 2 bar) pump volume depending on the pump selected

The metering system DULCODOS® universal mini is supplied ready connected and its small footprint enables it to be integrated simply into the process. The construction is exceptionally well arranged with the new valve block.

The compact metering system DULCODOS® universal mini (PE) is optionally available with up to two solenoid-driven metering pumps of the product range Beta® 4 or 5, gamma/ X and gamma/ XL. It is also unbelievably simple. The system is cost-effective and can be delivered extremely quickly.

Your benefits

- Compact and well-arranged construction
- Reliable and precise metering of liquid chemicals with proven solenoid-driven metering pumps
- Systems with 1 or 2 pumps and 1 or 2 points of injection
- Calibration unit with priming function for controlled metering
- Optional: Pulsation damper, spray guard

Field of application

- Cooling water treatment
- Waste water and process water treatment
- Paper industry
- Food industry
- Beverage industry
